David,

Here is our reply.

No, we are not currently active in any modelling or direct ORD liaison right now at the ICP.

We did participate in the recent catchment basin model call.

I checked with Deb McKean and she recommended that Joan follow-up with Sandy Spence, who is working on the LTMP.

Mike

Anyone down there working with ORD? Especially on the modelling?

**From:** Card, Joan  
**Sent:** Monday, October 05, 2015 2:56 PM  
**To:** R8 GKM Leadership Team  
**Subject:** ORD Work

All. This is how ORD describes its work in the GKM response. Is someone on this team coordinating with them, especially on the anticipated actions?

- EOC ORD Desk and RACER lead maintained continuous communications during first three weeks to ensure that any technical or scientific actions hitting the EOC would be promptly addressed. ORD Desk manned by NHSRC and OSP technical staff.
- ORD staff participated in:
  - Review of R8 developed Draft Recreation Screening Levels – NCEA, NHSRC
  - Review and comment on Regional Sampling and Analysis Plans - NHSRC
  - R8 watershed monitoring plan – NHEERL, NHSRC, NRMRL, NERL
  - Review and assessment of water quality and sediment analyses before publishing - NHSRC
- ORD self-directed, anticipatory actions:
  - Fate and transport modeling – NERL, Athens
  - Groundwater hydrology – NRMRL, Ada
  - Lab capacity – NRMRL, NERL

---
